

EKO florist

Natural power of flowers in daily skin care,
including sensitive skin care

Why **EKO**florist

- ✓ Because cosmetic preferences of consumers are closely related to natural ingredients, women love flowers!
- ✓ Each EKOflorist product is based on the **precious properties of flowers** - ecological hibiscus flower extract, lotus extract, cornflower, flax, mallow or poppy.
- ✓ **Suitable for all skin types.**
- ✓ Thanks to vegan formulas with a high content of ingredients of natural origin - they are also **suitable for sensitive skin.**
- ✓ Can be used by women of all ages - also with **mature skin.**
- ✓ Cosmetics **tested under the supervision of a dermatologist.**
- ✓ Cosmetics for use around the eyes - tested under **the supervision of an ophthalmologist.**

EKOflorist

Taking care of nature

- ✓ The paper boxes and labels are recyclable.
- ✓ We minimize the production of plastic - the cartons are cellophane-free, we use glass jars.
- ✓ Corks made of wood fiber.

ECO CERT COSMOS NATURAL certificate is a guarantee that cosmetics are made of raw materials that meet Cosmetic Organic Standards rules, from composition to production and packaging. **COSMOS – Cosmetics Organic Standard**

Cartons are made of material from sustainable forests. **FSC – Forest Stewardship Council**

Minimum content of **ingredients of natural origin** in certified products is **95%**.

Vegan products – no ingredients of animal origin.

What is the purpose of COSMOS certification?

- **COSMOS** certification allows your organic or natural cosmetics to be commercialized worldwide
- What are the key guarantees of COSMOS certified organic and natural cosmetics?
- The COSMOS certification guarantees:
 - environmentally friendly production and processing processes respecting also human health.
 - development of the concept of green chemicals
 - responsible use of natural resources
 - respect of biodiversity
 - absence of petrochemical ingredient (except for authorized preservatives): parabens, phenoxyethanol, perfumes and synthetic colorants
 - absence of GMO
 - recyclable packaging

How to get the COSMOS label on your products?

- It is certification according to the international COSMOS standard or the private Ecocert standard which enables the labelling of your natural or organic cosmetics.
All the products marketed with the Ecocert logo have been verified by our teams: from composition to processing and packaging. Consumers are thus given a transparent information on the content in natural and organic ingredients displayed on the products.
- **Natural origin**
All the ingredients are from natural origin except a restrictive approved ingredients list (including preservatives) authorized in small quantity.
On average, Ecocert certifies products contain 99% ingredients of natural origin.
- **Promoting Organic**
A beauty care product is COSMOS ORGANIC certified only if:
 - 95% minimum of the plants it contains are organic
 - At least 20% of organic ingredients are present in the total formula (10% for rinse-off products)
 - Note: water or minerals are not regarded as "organic" for they are not from agriculture. Since water is a major component of numerous cosmetic formulas, it implies a dilution of the proportion of organic ingredients out of the total of the product. Thus a massage oil which does not contain water may display up to 100% of organic ingredients.
- Who are the recipients of this organic certification?
- Producers of raw materials, manufacturers, brands or any player of the cosmetics sector can apply for this certification.

Why do we choose this certificate?

COSMOS
NATURAL

ECO CERT COSMOS NATURAL certificate guarantees that

- ✓ Cosmetics are made of raw materials that meet **the highest standards.**
- ✓ Cosmetics contain raw materials of **natural and organic origin.**
- ✓ Minimum content of **ingredients of natural origin** in certified products is **95%.**
- ✓ **Vegan products** – no ingredients of animal origin.
- ✓ **The product inspection** is carried out at all stages of production.
- ✓ Cosmetics are manufactured in accordance with the **environmental protection regulations.**
- ✓ The products are **trustworthy**, respected and popular among consumers.
